

SEASONAL SCIENCE

Bringing science to life outdoors in all weathers
A course for teachers in KS 1 and 2

On Monday 22 Jan 2018, 1.30 - 4.30pm at Burwell House, CB25 0EF

Investigate

This hands-on, practical course will share ideas, activities and techniques to support teaching aspects of the Science National Curriculum in the outdoor classroom, whatever the time of year.

Collect

Participants will be encouraged to use school grounds or local green areas to enhance learning, and activities will involve making the most of limited resources.

Explore

Aspects that will be covered include:

- **Living things and their habitats**, including techniques for collecting, sorting and identifying plants and animals from a range of habitats; classification and using keys; food chains
- **Materials**, including identifying, sorting and changes to everyday materials; rocks, soils and fossils
